## ARMED TACTICAL GROUND VEHICLE

ARTAC is equipped with three types of center-mounted 360° ring mount variants, capable of mounting either an Automatic Grenade Launcher (AGL), an Anti-Tank Guided Weapon (ATGW), or a Heavy Machine Gun (HMG). It is also fitted with six smoke grenade launchers, featuring both single and salvo firing modes. The ARTAC chassis utilizes a body-on-frame construction, combining a ladder frame with a bent vehicle frame on top. This configuration is well-suited for tactical vehicles, allowing the use of various. The body frame is constructed from mild steel, which offers huge durability and is resistant to rust.
